## CAREER OBJECTIVE :

A dedicated Full Stack Web Developer with a strong foundation in Java and Python, I combine the logical precision of a Mathematics degree with the advanced technical knowledge gained from a Master's in Computer Applications. I excel at designing intuitive, responsive user interfaces using HTML, CSS, and JavaScript, while also building reliable and scalable backend systems with modern frameworks. My sharp analytical thinking, passion for solving complex problems, and enthusiasm for learning new technologies allow me to make valuable contributions to innovative development teams. I'm excited to work on cutting-edge projects that deliver meaningful digital solutions.

## PROJECT DETAILS:

### PROJECT-1:

NAME OF THE PROJECT	WEATHER APPLICATION
LANGUAGE USED	HTML, CSS, Java Script
DESCRIPTION	<p>A responsive and user-friendly web application that provides real-time weather information for any city using a clean and intuitive interface. Built using HTML, CSS, and JavaScript, the app fetches weather data from a public API and displays key details such as temperature, humidity, weather conditions, and more. Designed with modern UI principles and optimized for both desktop and mobile devices, this project showcases my skills in frontend development, API integration, and dynamic DOM manipulation.</p> <p>Link : <a href="https://weather-app-dibyasmrutis-projects.vercel.app/">https://weather-app-dibyasmrutis-projects.vercel.app/</a></p>

### PROJECT -2:

NAME OF THE PROJECT	PERSONAL PEORTFOLIO
LANGUAGE USED	HTML, CSS, Java Script
DESCRIPTION	<p>I developed a fully responsive personal portfolio using HTML, CSS, and JavaScript, featuring dedicated Home, About, Portfolio, and Contact pages. The site showcases my skills, highlights key projects, and allows visitors to easily download my CV. It supports both dark and light modes, giving users the flexibility to switch themes based on their preference. The design includes smooth navigation, a clean and modern layout, and interactive elements for an engaging experience. Optimized for mobile, tablet, and desktop views, the portfolio ensures accessibility across all devices. It reflects my front-end expertise and attention to detail as a Full Stack Developer.</p> <p>Link : <a href="https://my-portfolio-pi-sooty-32.vercel.app/">https://my-portfolio-pi-sooty-32.vercel.app/</a></p>

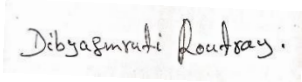

PROJECT -3:

NAME OF THE PROJECT	PERSONAL BOOK STORE
LANGUAGE USED	Python, HTML ,CSS ,Java Script and Azure Cloud
DESCRIPTION	<p>Welcome to a digital bookshelf built for the modern reader. My Personal Bookstore is a full stack web application where users don't just browse—they <b>upload</b>, <b>download</b>, <b>rate</b>, and <b>review</b> books in their own personalized library. The sleek interface, built with <b>HTML</b>, <b>CSS</b>, and <b>JavaScript</b>, ensures a smooth and responsive experience across devices.</p> <p>Behind the scenes, a <b>Python</b> backend manages user interactions, while <b>Microsoft Azure</b> powers secure and scalable cloud storage for book files and user activity. Every user can shape their shelf, share opinions, and discover new reads—all in one place.</p>
